Testimonies from Kenya

I was touched when our local church members shared about witnessing during the week. They had never done that and were so excited they had the chance. They loved using the evangecube. We were also able to share with a young man and after we shared and he accepted Jesus. He told us that he had recently joined a devil worshipping church and asked that we pray for him to have the courage to leave. Also, he asked that we pray that he would have Christian friends. We invited him to church and hopefully he will come and get involved. **Donna H-**

We walked on a small trail through the sea of tea and on a hillside. There we met a 24 year old woman working in the cornfield. Here little baby was lying on a blanket in the midst of the corn. We shared Jesus with her and she happily received. On Sunday, we baptized the new believers. As we sang and as they beat the drums this young woman was the first to enter the water. What a joy to see her follow through with her commitment to Christ.

Miki M

I was not afraid of International travel, or food, or new experiences. I was very afraid to walk up to a stranger and begin to share my testimony. I began to pray early in the year that God would give me the words to say as long as I would "Go". God was faithful and I have had a wonderful week sharing my testimony and the evangecube with audiences of one to 200. **Dulcy W-**
